

IJCB 2017: International Joint Conference on Biometrics
October 1 - 4, 2017, Denver, Colorado, USA

Call for Demos, Exhibitions and Competitions

Demo, Exhibition and Competition Co-Chairs

Stephanie C. Schuckers, Clarkson University (sschucke --AT-- clarkson.edu)

Thirimachos Bourlai, West Virginia University (Thirimachos.Bourlai --AT-- mail.wvu.edu)

Demo Submissions

IJCB 2017 will host demo sessions to provide to participant researchers the opportunity to showcase live demonstrations of their contributions in the area of biometrics. The demonstrations are intended to display, in an interactive setting, new methods and technologies, system prototypes, and experimental features of mature systems.

Demonstrations from both the academia and government are welcome. The demonstrations are *not limited* to papers being presented at the IJCB 2017 conference. We also welcome biometrics related work that was published at other premier computer vision conferences. The primary requirement is that the topic of the demo falls within the broad context of detection and recognition of standard biometrics (e.g. face, iris, fingerprints) or novel biometrics modalities.

- Prospective demo participants should fill out and submit an [application form](#) and videos, describing the demonstration and listing requirements (e.g. space, power, internet)
- All submitted demos will be reviewed and decisions will be based on *the degree of appropriateness and quality* for IJCB 2017
- The demos will be included in the conference proceedings as one page abstracts. At least one presenter for each demo must be registered for the conference.

Kindly note that the display and marketing of commercial products must instead be arranged as part of the exhibition program.

For further information about **demos** please contact T. Bourlai at ThBourlai@mail.wvu.edu

Awards for Demos

If you are selected to be a demo participant, a voting process (for the best participant) will take place on the day of your demonstration. The *quality* of the illustrated *capabilities* as well as the *quality* of the *presentation* will be considered toward the selection of the best participants. Extra points will be given to participants that are UGR or GRA students. The winners will be announced at the IJCB 2017 conference dinner meeting.

Important Dates:

- Application deadline : August 18, 2017
- Acceptance notification : August 25, 2017
- Camera-ready one page demo description : August 31, 2017
